

Coolpad XL GEL

User Manual

Enjoy maximum cooling with your Coolpad XL Gel pillow topper.
Twice the size of traditional cooling pillow toppers, it will cover the entire surface of your pillow and cool not only your head but also your neck and shoulders.

This self-cooling XL pillow topper is suitable to all standard pillows (75x50cm or 65x65cm).
Very practical and easy to use, it can be folded in 2 or 4 to be carried everywhere and can even be used under the calves for example.

An ocean of freshness for your sleep and well-being

The Coolpad XL Gel contains a **self-cooling gel**.
The properties of its inner gel are such that the over-pillow will **absorb your excess heat**.
The freshness will last for a few hours and then once set aside, the pillow will naturally return to its original cool temperature.
No action is required on your part before using the Coolpad XL Gel.

To enjoy its freshness, simply slip it under your pillowcase. If you want more cooling, you can put it on top of your pillow to be in direct contact with your skin.

For even more freshness, you can put your pillow topper in the fridge for 30 minutes to 1 hour or in the freezer for a maximum of 15 minutes.

Thanks to its quantity of gel, the pillow topper is **soft and supple**.
You can fold it in 2 or 4 to increase its soft comfort or to make its transport easy.

Care & Storage

The polyester coating gives the Coolpad XL Gel good durability and makes it easy to maintain.

You can clean your Coolpad XL Gel with a **damp sponge and soft soap**. Do not use abrasive sponges or detergents.

Do not put in a washing machine or a tumble dryer. Keep out of direct sunlight.

Store your Coolpad XL Gel in a clean, dry place.
