SELF-HEATING EYE MASKS

USER GUIDE

Spa du Regard

The *Spa du Regard* **self-warming mask** is a real care and relaxation duo for your eyes and eye contours. It will offer you a moment of deep relaxation, as if you were at the Spa, for a rested and luminous look.

The eyes and their contour are particularly sensitive, which is why they need specific care.

The mask is very easy to use. No need for a microwave, it heats itself as soon as it comes into contact with the air. The pack contains 10 sachets with a single-use self-heating mask.

The *Spa du Regard* mask heats up as soon as the bag is opened due to the contact with the air. This is the result of a reaction of oxidation of a little iron powder, which is totally natural.

In contact with the air, the activated carbon contained in the mask will heat up naturally, generating water vapor. Gently diffused over your eyes, it will be beneficial for your skin and your wellbeing.

For your skin care, the heat will open the pores, deep cleaning and a better efficiency of the skincare applied afterwards. It will activate the microcirculation (bags and dark circles) and relax tired features.

For relaxation, the direct contact of the heat on your eyes offers you a deep relaxation, an evacuates stress.

The mask pattern may change depending on the production run.

The *Spa du Regard* self-heating mask is very easy to use.
No need to heat it, just take it out of its bag and the mask heats itself.

- Make sure your skin is perfectly cleansed and makeup-free.
- Take the mask out of its bag and unfold it by gently separating the two branches.
- Apply it immediately using the notches at the ears. The mask must be used as soon as you take it out of the bag.
- The water vapor will start to diffuse and the heat will gradually intensify (for about 2 minutes) and then stabilize at 41°C.
- Leave the mask on for 20-30 minutes.
- Keep your eyes closed during use.
- After 30 minutes (or maximum 1 hour), remove the mask and discard it (the masks are for single use only)
- Rinse your skin and apply your usual skin care cream.

BENEFITS

Your eyes are solicited daily and undergo a lot of stress (pollution, make-up, screens, sun, dust...). It is therefore appropriate to offer your eyes a specific product combining care and relaxation such as the *Spa du Regard*.

- Relaxation and stress relief
- Sleep aid
- Removal of impurities and deep cleaning of the eye area through the diffusion of steam (opening of the pores).
- Increases the efficiency of your usual skincare cream.
- Reduction of wrinkles, dark circles and bags under the eyes thanks to the activation of the micro-circulation by the heat.
